Matteo Bianchi

Lead DevOps Engineer | SRE | Platform Engineer

I'm an impactful DevOps Engineer who loves Site Reliability and building Platforms. In my spare time I **mentor** people about their IT careers and help startups by breaking (in) their products.
Check out my **experience page** for a full overview.

Experience

DevOps Engineer | SRE | Coach, Freelance 2021 - Present

- Offering **Engineering services**
- Advising startups about Infrastructure, DevOps and IDPs
- Managing EKS, AKS and GKE Kuberenetes clusters

CTO & Platform Engineer @ KubeLab (startup) 2022 - 2023

- Engineering management (7 engineers)
- Kubernetes-based Platform Engineering product SaaS
- **Python CLI** to interact with CSPs, IaC and k8s APIs

Sysadmin & DevOps @ Various IT Companies 2015 - 2021

- GitOps implementation - Flux, ArgoCD, Jenkins X
- Infrastructure as Code - Terraform, CloudFormation
- Kubernetes Management (EKS)
